

## Stanford Social Neuroscience Lab

In this study, we are interested in how people make judgments about other people's emotions. This task will take approximately 30 minutes.

Please make sure your **sound** is on.

Do not do this HIT on a mobile device or tablet.

Start

Legal information: By answering the following questions, you are participating in a study being performed by psychologists in the Stanford Department of Psychology. If you have questions about this research, please contact **Alison Mattek** at [amattek@stanford.edu](mailto:amattek@stanford.edu) or Jamil Zaki, at [jzaki@stanford.edu](mailto:jzaki@stanford.edu). You must be at least 18 years old to participate. Your participation in this research is voluntary. You may decline to answer any or all of the following questions. You may decline further participation, at any time, without adverse consequences. Your anonymity is assured; the researchers who have requested your participation will not receive any personal information about you.

Experiments Progress 10%

	This statement describes me...				
	Not very well				Very well
I often have tender, concerned feelings for people less fortunate than me.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I sometimes find it difficult to see things from the "other guy's" point of view.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Sometimes I don't feel very sorry for other people when they are having problems.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
In emergency situations, I feel apprehensive and ill-at-ease.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
